

Please keep Indiana's telephone privacy act in its current state. I do not wish to receive calls from banks, credit card companies, long distance carriers that I may do business with. If I am interested in what these firms may have to offer, I will be sure to call them myself. I do not wish to receive calls from any extraneous sources, that is the precise reason why I signed up for the list. Please protect IN residents from this challenge against the act. Thank you.
